Scrap 3,000,000 Cars A Year

The destruction of three million cars a year is proposed by the Institute of Scrap Iron and Steel in a plan to stimulate the market for new automobiles. It is expected that it will be possible to recover more than one and a half million tons of steel and iron, suitable for other uses from the wrecking of these cars. The plan will guarantee the destruction of used motor cars by certain designated scrapers as they come to them from dealers who have taken the cars in trade. The dealer will of course, receive a cash bonus from the manufacturer for each car thus removed from the market and a nominal price from the scraper.

Ask Motorists Care In Forest Fire Danger.

The assistance of automobile dealers in educating motorists to the dangers, at this season of the year, of forest fires, has been sought by the forestry service. A match carelessly tossed from a car, it is pointed out, may be the agent to start a serious fire. A campfire not properly covered with earth may flame up to a blaze of frightful proportions. Motorists do not intentionally cause fire, but through ignorance of the forest fire dangers, their thoughtlessness is often paid for by the wiping out of whole areas of rich timber lands.

The Golf Tournament.

The local Golf Club will hold a tournament, on Wed., Aug. 25, at 2 sharp. Suitable prizes will be awarded to the lady and gent. getting lowest scores for the day. The course will be in best possible condition. Lunch will be served by the ladies on the grounds after the play-off.

Following are the draws:
President v. Vice-Pres.
— Ladies —

Miss E Wolfe v Miss B. Wudel
Mrs D. Moyer v Mrs. C. Lory
Mrs J. McCulla v Mrs R.A. Walton
Mrs F. W. Yesta v Mrs W. Connolly
Mrs G. Donaldson v Mrs J. F. Clarke
Miss M. Clarke v Mrs A. E. Michael
Mrs H. Oppertshar v Mrs W. Lewis
Mrs L. Kowensky v Mrs G. Oppertshar
Miss Marie Clarke. Bye
Miss McDonald v Miss C. E. Miller

— Gentlemen —
F. W. Yesta v W. J. Connolly
W. Comisarow v Dr. Walton
J. McCulla v Hy. Miller
Gus Barth v G. Bryan
J. P. Gannon v W. Lewis
C. Singer v J. McGillis
W. Robertson v J. Walker
T. J. Hardwick v J. F. Clarke
D. Moyer v A. E. Michael
H. Larson v S. Comisarow
J. P. Miller v G. E. Clarke
C. J. H. Lory v A. Willie

Players are requested to get in touch with their opponents and arrange to play off as soon after 2 as possible. An accurate record of scores must be turned in so that the committee may be enabled to handicap individual players for competition at a later date. Any person desirous of becoming a member and taking part in the tournament may do so by paying their fee before that date.

Mr. & Mrs. Moseley on Tour

Mr and Mrs J. Moseley, who have been motor touring on their honeymoon, are expected to return home this week. The couple motored east thru St. Paul, Chicago, Detroit, and visited Toronto, Montreal, and other Eastern cities. Mrs Moseley is the former Miss Elsie Gitzel. Mr Moseley has accepted the principalship of the Rimby Consolidated school. Rimby is Mr Moseley's old home town.

Former Councillor Missing.

Following the discovery of a shortage approximating one thousand dollars in the accounts of Strathcona Municipal District No. 518, Provincial Police officers are seeking Alex McDormid, a former Councillor. The impression prevails he has returned to the Old Country.

U. S. Increases Postage

Following closely the recent changes in the Canadian budget, the U. S. has adopted similar methods. On Sept. 1 the postage rate there will be increased; letters to Canada requiring a 3c stamp for the first ounce and an additional 3c for the 2d oz. Air mail rates have been raised from 5c to 6c for first oz.

Relief Expenditures

It is now an assured fact that a very large sum of money will be expended by the Federal, Provincial and Municipal authorities throughout Canada in the provision of relief to people in need of such assistance during the next eight, ten or twelve months, Premier Bennett told Parliament that the situation in the Western Provinces, because of drought and consequent crop failures, constitutes a national emergency, while the unemployment situation, aggravated by the loss of purchasing power in the west, was more acute than ever.

As a result of this condition Mr. Bennett informed Parliament that a huge sum of money would be necessary in order to provide the relief required. "How large a sum he did not attempt to estimate, but took the usual step of asking for a 'blank cheque'; in other words, any amount considered necessary with no limit whatever imposed. Parliament authorized the issue of such a cheque.

Unquestionably there is dire need for large expenditures for relief. They must be provided. No Canadian is prepared to see a fellow citizen suffer for lack of food, clothing, shelter or fuel. To mention the possibility of dying from starvation or freezing to death. But while there are thousands of such wholly deserving cases, there are many people who can get along without relief assistance who will look upon the expenditure of large amounts of public money as just so much "easy" money and will be out to get their share of it.

Right at the outset it would be well if each and every Canadian taxpayer would get the fact firmly established in his mind that this is not "easy" money; that it is in reality the hardest kind of money—borrowed money on which he will have to pay interest probably to the end of his days. It is his money and it is in his own interest, therefore, to see that not one dollar is wasted or unnecessarily expended.

It perhaps cannot be too often stressed that there is no magic source of money supply for governments, and, further, that governments are but committees of management administering what belongs to the people. Every dollar of this relief money must be borrowed; upon every dollar borrowed interest must be paid every year; every dollar of interest must be provided by the imposition of taxation upon the people; every dollar of taxation imposed constitutes a drag, a handicap, upon a rapid and complete return to better times, an overhead expense to be carried and paid for throughout the coming years by every business man, every farmer, every workman.

Therefore, every person unnecessarily demanding and unjustly receiving relief he can get along without, is prolonging the period during which the extension of relief to some will be necessary. Such persons may even be accentuating conditions which, in the long run, may force him into the position where he himself cannot exist without relief.

It is in the interests of one and all that relief expenditures be kept within bounds, held down to the actual needs of the situation, rigidly restricted to those who cannot possibly exist without such help.

Communities, as well as individuals, should not be out to get as large an amount as they possibly can, but rather should be seeking out ways and means whereby they can get along with as little as possible in the way of relief expenditures. There are hundreds, yes, thousands of people, who by a little thought and self-sacrifice could help other people in this time of stress and emergency and thus appreciably reduce the number requiring public assistance. Many people who can afford to do so, and even some who can ill afford to do so, have in a sense "adopted" some out-of-work individual or family in need and, in many little ways, are making it possible for them to maintain themselves, with added confidence and self-reliance, thus reducing the demand upon public funds and checking the spread of "the spirit of the dole."

It is to be hoped for the sake of Canada of today and of the future that individuals, communities and municipalities alike will, for the most part, not be found boasting of how much they got in the way of relief, but rather will be pointing with pride to the fact that they were able to get along with so much less than others.

Receives Medal

L. J. Burpee Is Honored By French Academy

Word has been received at Ottawa from Paris, that the French Academy has awarded the Médaille de Vermeil to Lawrence J. Burpee, Ottawa author, in recognition of his outstanding work in connection with the early history of Canada, and particularly because of his scholarly editing of the journals of La Verendrye, last of the great explorers of New France and discoverer of the prairie provinces of Canada.

The Médaille de Vermeil carries with it the title of Laurent del Institut.

A gasoline pump has been invented with an adding machine which checks the amount of gasoline bought and the correct cost.

Gandhi As Social Reformer

Makes Plea On Behalf Of Millions Of Untouchables

Mahatma Gandhi, dedicating a new Hindu temple, described himself as neither saint nor politician but as social reformer.

"I take a thousand times greater interest in my work as a reformer than in politics," he said. "If I dabble in politics it is only to stimulate my social activities."

He pleaded that all Hindu temples should be thrown open to the country's 70,000,000 "untouchables," declaring that the sins committed against these social outcasts by high caste Hindus had been responsible for India's failure to achieve self-government.

Brief Winter Cruises

Canard Steamship "Mauretania" To Visit Mediterranean Ports

The largest passenger ship charter ever made by a steamship agency, which will send the giant trans-Atlantic Canard liner "Mauretania" on five import cruises to the Mediterranean next winter, was announced by Ralph Dellevie, president of the National Tours. This enterprise, which surprises the steamship world by the daring and novelty of its programme, will involve financial transactions of a little less than \$2,000,000.

The five cruises to the Mediterranean will be made in the extraordinarily short time of seventeen days. Previously for cruises of moderate length, the West Indies had been generally considered the only possible objective. Questioned on this point, Mr. Dellevie said yesterday:

"The 'Mauretania' is one of only three ships that can make this cruise. Because of her tremendous speed she will be able to cross the Atlantic and divide five full days among the exceptionally fascinating ports of the Mediterranean.

"These cruises are arranged for business men and women, including week-ends, the seventeen days occupied on any one of the trips is just about equivalent to the usual two week-end. The ship is a good time-waster. The passengers will get to the sapphire blue waters of the great inland sea in a hurry, but they will have plenty of time to enjoy new climates and scenes before this great ship brings them back to the land side. They will cover three continents and four countries."

Minimum rates for the five Mediterranean cruises to be made by the big Canard will be \$24.05 for the round trip. All passengers will be First Class and have the full run of the ship. The regular trans-Atlantic service, including a la carte menu in the dining room without extra charge, will be used on the cruises. A series of shore excursions will also be included in the stated price of the cruises.

Ports which the "Mauretania" will visit on her Mediterranean cruises will be Cadix in Spain, Gibraltar, Algiers in North Africa and Villefranche on the French Riviera. A day will be spent at each port with the exception of Villefranche, where the "Mauretania" will anchor for two days to allow her passengers to visit the most fashionable of the famous Riviera resorts, including Monte Carlo, Nice and Cannes. The cruises will leave New York December 17th (Christmas and New Year's Cruise), January 8th, January 27th, February 15th, and March 6th.

Persian Balm is the one true family aid for skin health and beauty. As the mother in additional loveliness. Protects the tender skin of the child. Delights the father as a hair fixative or cooling shaving lotion. No matter to what use it is put, it is always beneficial to the skin. Every woman should use it. Persian Balm cools and caresses the skin and creates complexions of surpassing loveliness.

Testing New Type Glider

Fitted with windmill vanes, made familiar by autogyros, a glider is being tested in Germany, with first reports indicating that the idea is successful. On a vertical post before the pilot's cockpit the vanes, like a large four-bladed propeller, all horizontal, are mounted. The craft's wings are slightly smaller than those of the ordinary motorless plane. The vanes are said to enable the glider to stay aloft in lighter winds than craft of this style.

Rub It In For Lame Back. — A brisk rubbing with Dr. Thomas' Electric Oil will relieve lame back. The skin will immediately absorb the oil and it will penetrate the tissues and bring speedy relief. Try it and be convinced. As the liniment sinks in, the pain comes out and there are ample grounds for saying that it is an excellent article.

A Valuable Chemical

Millions of pounds of apple pomace may be reclaimed from cider and vinegar mills and converted into uric acid, a valuable chemical recently extracted from apple peelings, says the Popular Mechanics Magazine. The Department of Agriculture has found that the chemical, a yellow powder, repels water. When added to lacquer, it increases their gloss and water resistance.

Sells Cattle In England

Saskatchewan Farmer Makes Good Profit On Sale Of 55 Head

William "Bill" Porter, farmer of Wakaw, Sask., arrived recently at Ottawa from England, where he sold 55 head of cattle raised and fattened upon his own farm.

Mr. Porter brought along \$1,300 in hard cash, being the difference between the British price for beef and the price at Winnipeg. By exporting to the Old Country he made just that much more money than he would have done if he had stayed at home and sold through the Winnipeg stockyards.

Hon. Robert Weir, Minister of Agriculture, referring to the Porter shipment, said that these cattle had arrived in England at a time when the market was flooded with Irish cattle. Otherwise Mr. Porter would have netted \$2,000 instead of \$1,300 above Winnipeg prices.

These cattle averaged 1,070 lbs., fifteen of the lightest animals brought a peak price of £26 3s. per head. The Minister remarked that Porter's was one of the best finished shipments to leave this country. The gain of \$1,300, he said, was calculated after all expenses of the trip to England had been deducted.

"There is no market in the Old Country" said Mr. Weir, "for our really poor cattle. If cattle are below the two top grades the British people prefer to buy Argentine beef."

All mothers can put away anxiety regarding their suffering children when they have Mother Grace's Worm Expeller to give relief. Its effects are sure and lasting.

Deaf Mute Files Sear

Though unable to either hear or speak, Edward T. Payne has made a solo flight in an aeroplane. This followed about 11 hours of dual instruction at Walker airport, Windsor. It is believed there that he is the first person with such handicaps to fly a plane. He will be awarded a private pilot's license as soon as he qualifies.

Well Protected

Ralph—But, look, Daddy's out a long way.

Mother—I know, dear, but your father has his life insured.

Famed Indian Scientist

Einstein Of The East Lives In Poverty Among His Own People

Sir Chandrasekhara Raman, "Einstein of the East," whom the west sought out as the recipient of the Nobel prize in physics, has been deluged with invitations from all over the world to lecture, and recently another came from California. But the Indian scientist is too poor to travel.

He has no laboratory and only the most limited library. The man who has been honoured by a dozen foreign countries with medals and degrees lives in relative obscurity and comparative poverty among his own people.

His home is a small dark flat in the poorest quarter of Calcutta. The room in which he makes his discoveries concerning the nature of light has a stone floor, a leaky ceiling and bare walls, but visitors forget the shabby surroundings in his vivid personality.

Sir Chandrasekhara is only 45, tall and broad-shouldered, with a slight stoop. He dresses in the European style, with a white turban his only concession to the native custom.

"I have little or no means of continuing my own studies," he said, "and unhappily there is little realization in my country of the importance of research, although it is remarkable that the greatest contributions to science in India have been made by Indians who had no foreign training."

Like Einstein, to whom he often is compared, this Indian physicist is a master of the violin, on the technique of which he has written several books.

Keep Douglas' Egyptian Liniment

always in the stable ready for immediate use. Removes proud flesh and inflammation, Thrush or Hoof Rot, and infection of cow's teat.

Dictagraph Aids Firemen

Records of every telephone fire alarm made in Portland, Ore., are being kept on a dictagraph attached to the switchboard, according to Popular Mechanics Magazine. When an excited householder screams into the telephone, "Our house is afire," and in his haste mumbles the address so unintelligibly the fireman cannot answer the call, the disk may be "played back" slowly so that the words can be distinguished.

The Mother of Seven Children Used It For Diarrhoea

Mrs. Ray Drinkwater, R.R. No. 2, Hagersville, Ont., writes:—"I am the mother of seven children, and last summer one of them, 17 months old, was taken very sick with diarrhoea, and I thought she was going to die.
"My husband went 7 miles to see what my sister had given her baby, and he came home with a bottle of Dr. Fowler's Extract of Wild Strawberry. I gave the child a few doses and she was soon well again.
"My other children also had diarrhoea at that time and I gave them 'Dr. Fowler's' with the same results."

Pasture Lands Survey To Be Conducted By Professor Of Saskatchewan University

Complete survey of all pasture lands in Canada is to be conducted by Prof. L. E. Kirk, of the University of Saskatchewan, announcement of whose appointment as Dominion Agrostologist was made in the House of Commons by Hon. Robert Weir, Minister of Agriculture.

Reduction in carrying power of ranges has been giving concern to the Government, Mr. Weir said. In order to stimulate the cattle industry a series of experiments are to be conducted as to the best grasses for the purpose. Prof. Kirk is expected to come to Ottawa within the next few months and will supervise the whole program. The time of his assuming the position was stated to depend upon the finding of a successor to his present post in the university.

"In some stations," Mr. Weir said, "it will take four acres now to carry as many head of cattle as one acre would have done some years ago. The western farmers, due to the price of wheat and other grains during the past few years, have not been attempting to keep a great deal of livestock, even in districts where they might do so, or to pay attention to forage crops.

"The farmer in the west has been paying attention particularly to the raising of wheat—and I say this without criticizing them, because they turned their attention to that method of farming which they believed would give them the greatest crop—but the result has been, by taking all the fibre and strength out of the land, to create nearly as possible the ideal condition of the desert.

"One thing we must concentrate on in the west, therefore, is to get the best authorities we can to work on the question of pasturage. There was no doubt that the best man was Professor Kirk of the University of Saskatchewan, at Saskatoon. He is one of the three best men in that work on the American continent, and I think he is easily recognized as the best man in the Dominion of Canada."

The newly appointed Dominion Agrostologist, Dr. L. E. Kirk was raised on a farm near Hazenmore, about 120 miles south-west of Regina. He is professor of field husbandry in the University of Saskatchewan and in his new position will have charge of development of grasses suitable for use in Canada.

Dr. Kirk is a graduate of the University of Saskatchewan. He obtained the arts degree in 1915; the agricultural degree in 1916, and later his master of science degree. In 1927 he received his doctor's degree in plant breeding, from the University of Minnesota. Since his graduation, Dr. Kirk has been engaged as assistant, and as professor in production of new varieties of clovers and grasses.

Push Buttons Feed Coal

One man, by merely pressing push buttons, closes all the coal-burning boilers in a 47-story New York hotel. The boilers burn pulverized coal and when a button is pushed exactly the right amount of coal to keep the fire at proper heat is automatically released from the bunkers to the fire box.

Hurricanes usually originate in the ocean.

"A friend told me you had a place vacant in your wireless factory."
"Do you know what it is for?"
"Yes, measuring the lengths of waves."—Moustique, Charlier.

W. N. U. 1935

Agriculture in Japan

Amazing Increase In Production Due To Artificial Fertilizers

Japan, a country which is even more densely populated than is China, and whose agricultural territory is limited by four-fifths of the country being mountainous, is exporting rice to China. Until the year 1929, Japan was not growing enough rice for her own people and was forced to import large quantities from China and elsewhere. In 1929, owing largely to scientific methods of cultivation and the liberal use of fertilizers Japan, for the first time in recent years, produced a surplus and is still looking for markets abroad for her agricultural produce. The direct cause of this phenomenal increase in production is undoubtedly the policy of the Government in encouraging intensive cultivation by the use of large quantities of artificial fertilizers. The annual consumption of sulphate of ammonia alone in Japan is over 500,000 tons and of super-phosphates over 300,000 tons in addition to which large quantities of guano, nitrate of soda, potash and bean cake are used. The annual expenditure in Japan for fertilizers is over 300,000,000 yen.—Weekly Press, Hong Kong.

Making Work Count

"Record Of Performance" For Poultry, Great Help To Farmers

If the farmer is sufficiently interested in breeding poultry to be doing any tramping on his plant, he can make his work count by being entered in "Record of Performance" for poultry. This is a system of "production recording" on an official basis as the result of which certificates are issued for those birds which conform to requirements as to number and size of eggs laid, and freedom of disqualifications for the breed.

The department at Ottawa supplies the farmer with leg bands for his birds, with report forms, and with the services of an inspector in selecting the entries, and checking any errors which may crop up in his work. All the farmer has to do is to keep his records, sending an official copy weekly to headquarters at Ottawa.

Every month or six weeks the breeder entered in R.O.P. receives a visit from an official inspector whose duty it is to check up on his records and work. As a regular feature of their special duties these inspectors give the breeder all the information and help possible. From one such visit the farmer gets more vital and useful information about breeding work than the price of entry could procure in other ways.

"Sun Spots" and Furs

Control Yield Of Canadian Product Says Oxford Professor

Has the "sun spot" a predominant influence upon the cycles of plenty and want in the supply of Canadian fur-bearing animals?

This question was debated at length at the Canadian Biological Conference held in Matane, Quebec, following a paper by Charles Elliot, a professor of Oxford, England. His paper was based largely upon voluminous records kept for over a century by the Hudson's Bay Company.

The peak of abundance in furred animals was reached every ten years, he said. Some unknown force exerted its influence on animal populations to keep them in step. He was inclined to a belief in climatic control.

Dr. Huntington, of Yale, said peaks of temperature and barometric pressure generally came out of the Canadian northwest to spread over North America. The solar cycle was the foundation of a great many cycles.

A cubic foot of water contains 7 1/2 gallons and weighs 62 1/2 pounds.

United States Proposals For A Year's Holiday In War Debts Reconciled With Young Plan

Praise For New Treaty

Canada's Trade With Australia Will Increase Says Royal Bank

The new treaty between the Dominion of Canada and the Commonwealth of Australia has given a wide variety of Canadian producers a preferred position in the Australian market and constitutes a basis of general optimism concerning the future development of trade between these two countries, states the August letter of the Royal Bank of Canada.

Canadian automobiles, newsprint, timber and canned salmon have been given special consideration, but when Canadian exporters have had time to make their goods better known in the Australian market there should be also a substantial increase in the volume of sales of a wide variety of other products. It has been stated that the value of United States exports will suffer by about \$25,000,000, but there are so many opportunities which have been opened to Canadian exporters by this new treaty that its full ultimate effect cannot be estimated closely.

Travelling In Russia

Ticket Must Be Purchased Two Weeks Before Journey

With more than 15,000 breakdowns and wrecks reported during 1930 on Russian railroads, travel in the Soviet Union is now regarded by the inhabitants as an exciting adventure. To secure a ticket, one must stand in line before the ticket window for 12 to 24 hours, and this must be done at least a fortnight before the contemplated journey. Two men sell tickets at different windows, one for even dates and the other for odd dates. Care must be taken by the prospective purchaser that he does not get into the wrong line and thus waste an entire day.—Wall Street Journal.

The difference between intelligence and education is that you can't be a complacent ass if you have intelligence.

"A butterfly," says a naturalist, "eats practically nothing." He's evidently never taken one out to dinner.

C.P.R. ELECTRO-MOTIVE CAR

Rolling out of Winnipeg Monday, August 19, to the accompaniment of contented humming instead of the usual energetic puffing, No. 48, the new Canadian Pacific Railway's electro-motive car started for its destined run on the Arborg, Man., sub-division. This is the first of two gas-electric, self-propelling cars to be placed on the company's western lines. The second arrives shortly for use on the Weyburn and Assiniboia sub-division in Southern Saskatchewan.

Including its smoking compartment, the car will accommodate 56 passengers; has a range of 400 miles at an average speed of 30 miles per hour, and makes 80 miles at full power. A 11-foot compartment for baggage and express and a section for engine room complete the equipment of the modern traction unit. The car will take two or three trailers.

No. 48's first train orders are being handled to C. W. Lister, engineer in the pique, by R. A. Gamble, superintendent of terminals, who with E. D. Cotterell, general superintendent Manitoba district (centre), and R. M. Fyde, superintendent of motive power, saw the car off on its first journey. Standing in the door to the engine-room is J. D. Muir, assistant superintendent of motive power.

Proposals of the United States for a year's holiday in war debts and reparations payments have been fitted into the Young plan by the conference of financial experts of the interested nations after three weeks' discussions in London.

The experts in the cabinet room of the foreign office in London, signed a protocol which provides the suspended payments shall be repaid in ten equal annuities spread over the period from July 2, 1933, to July 1, 1943. This means there will be a year's interim between the expiration and the beginning of repayments.

The suspended payments shall bear interest at three per cent, and shall be "absolute obligations involving no option of postponement," the protocol declares.

The report of the experts says it would have been much better procedure of repayment if the suspended payments could have been simply a postponement—putting off till 1933 the payments due in 1931, until 1933, the 1932 payments—and so on.

"But," the report says, "a different method was contemplated in the Franco-American agreement of July 6, 1931, and in view of the importance of reaching an agreement without delay those governments which are not parties to the Franco-American agreement have agreed to adopt the method of repayment contemplated in the agreement."

Other principal provisions of the protocol are:

- (1) That unconditional annuities due under the Young plan shall be paid into the Bank for International Settlements and upon condition that they be re-loaned immediately to the German Railway Company.
- (2) That payments required for service of the German external loan and for service of the international 5 1/2 per cent. loan of 1930, shall continue to be effected without any change.
- (3) That annuities to replace the suspended payments shall be paid in monthly instalments the 15th of each month beginning July 15, 1933. These payments shall amount each year to about \$29,000,000.
- (4) Belgium and Germany, it is stated, have come to their own agreement with regard to German marks left in Belgium after the German occupation.

In concluding their work, the experts encountered more difficulty with the smaller governments than with the larger powers. The Greek government, for instance, was able to accept suspension of payments by Germany, but must continue negotiations for the settlement of payments due from Bulgaria.

Another critical point was Jugoslavia's plea that suspension of payments worked a disproportionate hardship on her. This has received full consideration, the report said. It is suggested—subject to approval of the central banks—that if the Jugoslavian bank finds itself in difficulty it might depend upon appropriate action from other central banks and the Bank of International Settlements.

The committee said that although somewhat different considerations applied to certain relief reconstruction and miscellaneous postwar debts due to the European powers, it had been decided to suspend them during the debt holiday also.

"Some matches, please."

"Ordinary or safety?"

"It doesn't matter—they are so light my petrol lighter."—Moustique, Charlier.

"Just a moment please. I want to see if my little boy can spell this."
The Passing Show, London.

WORLD HAPPENINGS BRIEFLY TOLD

The production of apples boxed throughout the entire Okanagan district for 1930 was 4,147,426 boxes.

Fifteen million eggs a year are being used in a dried egg plant in Winnipeg, this being one of the city's new industries.

Dr. Beaumont, senior surgeon of the White Star line, has resigned after crossing the Atlantic 1,002 times.

During the first six days of August 95,000 tons of Soviet grain from Black Sea ports passed through the Bosphorus on the way to England.

Industrial production in western Canada has now reached a total of \$829,917,000. In the period 1925 to 1929 an increase over \$17,000,000 is shown.

Defeated in two attempts to fly from Tokyo to America in a small plane, Seiji Yoshikawa, Japanese aviator, will attempt to back-track the Lindbergh route with a larger plane.

Men who were digging in the garden of the "Rising Sun" public house, Norman Road, Greenwich, England, unearthed an aerial torpedo which measured 9 in. in length and was unexploded.

Sheep raisers in Kamloops, Ahcroft and Nicola districts report their stock in good condition, and shipments from this territory to the Vancouver market are expected to be as good or better than last year.

The "Arcadia," hydrographic ship from Montreal, is conducting charting operations in the harbour at Churchill. The information secured will be available for the boats entering the harbour for grain cargoes this year.

Only 14,778 native-born Canadians entered the United States in the fiscal year ended June 30, 1931, according to an announcement made by the State Department. In the previous twelve months 41,984 came in.

From High To Low
A one-day trip from the highest elevation to the lowest in the United States, from the 14,501-foot peak of Mount Whitney to a point 270 feet below sea level in Death Valley, was recently made by Norman Clyde, a member of the Sierra Mountain Club. He made the long descent in seven hours, and was the first man to accomplish the feat between dawn and dusk.

"Now, Karl, make this your motto. Never work before breakfast and if you must work before breakfast have breakfast before working."—Der Brummer, Berlin.

SUNDAY SCHOOL LESSON

AUGUST 23

A GOSPEL FOR ALL MEN

Golden Text: "There is no distinction between Jew and Greek: the same Lord is Lord of all, and is rich unto all that call upon him."—Romans 10:12.

Lesson: Acts 10:1 to 11:18; Corinthians 1:23-25.

Devotional Reading: Isaiah 11:1-5.

Explanations and Comments

The Church At Jerusalem Disapproves Of Peter's Deed, 11:14.—The apostles and the brethren at Jerusalem heard that Peter had preached to Gentiles in Caesarea, and on his return to Jerusalem they rebuked him, not for the preaching, but for having gone into the house of Gentiles and eaten with them—the scandal of it!

"You went into men uncircumcised and ate with them!" they exclaimed with horror. Up to this time Peter's authority had been unquestioned. It must have cut him to the quick to have his actions challenged. He did not quail, but justified his conduct, explaining the occurrences to them just as they had happened.

Peter's Account Of His Vision and Its Lesson, 11:5-10.—Webster defines the trance as "a state in which the soul seems to have passed out of the body into another state of being, or is wrapped in vision or ecstasy." It was while Peter was praying in the City of Joppa that he fell into a trance and had a vision by which God taught him a great truth.

In his vision Peter saw a receptacle somewhat resembling a great sheet held up by the four corners, which was let down from heaven toward him. "The vision was evidently in its form and in its direction the result of previous natural circumstances. The death of Stephen must have had its effect on the apostle's mind. That truth for which he died, the transient character of Judaism, must have suggested strange new thoughts to be pondered on and doubted.

In the receptacle Peter saw all manner of beasts and creeping things and birds, and he heard a voice bidding him rise, kill and eat. "Is the East the flesh-meat, which is never hung for days, like ours, is put in a great iron cooking-pot whilst the carcass is still warm, as indicated in this command."

A voice spoke a second time out of heaven, and the message was: "What God hath cleansed, make not thou common." "The vision which was taken simply to mean that the Mosaic regulations as to meats were to be abolished in order that Jews and Gentiles might associate and eat together; but it had a deeper and wider significance—that no human creature was to be regarded as common or unclean, for God is no respecter of persons, 10:24. And this was the doctrine; and all were drawn up again into heaven.

Peter's Account Of His Putting the Vision Into Practice, 11:11, 12.—Just at this juncture three men stood before the house and the Spirit bade Peter go with them.

"One of the great secrets of spiritual progress is to discern what the Holy Spirit's errand is for us in the immediate task. We must submit the present moment to His counsel. We must not dwell in some remote morrow and overlook the privilege that is near. As God gives us daily bread He also confers upon us a daily mission."—J. H. Jowett.

Peter's Account Of His Reception, 11:13, 14.—Cornelius explained to Peter how he, a proud Roman, had sent for a Jew to enlighten him. An angel had come to him and bade him send for Joppa for Peter, who would tell him how and all his house might be saved. Cornelius was a God-fearing proselyte who observed the Jewish hours of prayer, and whose prayers and alms were acceptable to God, 10:1-4. He was living in the best way he knew; he was not far from the kingdom.

"God's angels wait for an open door. They find it when the soul becomes devout, the life charitable, and the spirit prayerful."—Samuel King. The Holy Spirit given to the Gentiles and they are Baptized, verses 15-17.—Peter preached unto them Jesus (read Acts 10:34-43), and God's approval marked his words: "The Holy Spirit fell on them, even as on us at the beginning" [at Pentecost].

Record Grain Shipments

Shipments From Alberta North Country Reach High Mark

All records for grain shipments from the Alberta north country were shattered at the close of the crop year on July 31, according to official figures issued by northern Alberta railways.

For the 12 months just closed, grain shipments from the north hit the high aggregate of 12,564,766 bushels. The previous high was the close of the 1927-28 season, when marketings amounted to 11,506,630 bushels.

Friend: "There ought to be a special place in heaven for ministers' wives."

Minister's Wife: "Perhaps you're right, but I would rather go with my husband."

The ADVENTURES OF CAPTAIN JIMMY and his dog SCOTTIE

WHAT CAME BEFORE. Captain Jimmy and his friend Lieut. Jed Stone, plan to rescue Guy Stone, Jed's younger brother from the cruel Chinese bandits. Disguising their plane as a dragon, they raid the bandits' camp.

I searched hurriedly through the deserted tents for Guy. A few hundred feet away Lieut. Jed Stone stood gazing at his terrible dragon. A gleaming blue in the darkness, from the rim of the dark forest the bandits rifles flashed and stray bullets rained about the camp. Jed returned firing with bursts from his machine gun.

Tai-tai-tai. Tai-tai-tai. And the echoes resounded a hundred times from the high mountain cliffs. Adding to the terror of the situation the thunder which rumbled in the distance now rolled up overhead with a muffled roar.

Flashlight in hand I searched. The tents were in the utmost confusion. Dirty cooking utensils, fragments of cooked food were all strewn about in hatter scatter fashion. The air was close and hot. Scottie sniffed and sneezed, with disapproval.

No sign of Guy Stone in the first tent. We ducked under the back wall and made for the next one. As we ran across the open space, a rifle went Crack! A bullet whizzed by my arm. Those bandits were on the move.

From tent to tent we went, and each time we showed ourselves a scout. Lieut. Scottie still no sign of Guy Stone. The search was without success, and turned to go, heartbroken.

Scottie was sniffing a trail of rag. He wouldn't budge away, and continued pawing at the rag. How could I resist myself. I turned my flashlight on the litter. There at my feet lay Guy Stone, more dead than alive, was Guy Stone.

Cutting his bonds, I shook him well to bring back circulation into his numb arm and legs. Then I held him from tent to tent. Each time we showed ourselves, we were greeted with a regular fusillade of shots. The bandits, enraged at losing their captive were growing bolder and creeping closer. Jed rushed to meet us, and in a moment we lifted Guy into the plane. Boasting Scottie over into the cockpit I followed the two brothers, and in another moment we were rushing down the field.

A group of bandits, headed by the Chief, broke from the cover of the woods, firing as they came. Realizing that they had been duped by our dragon, their rage knew no bounds. They planned to hide our plane as we passed.

The storm which had held in check, now broke. Amid the crash of thunder, the rain came down in sheets. Then Jed turned down his machine gun. Stopping in their tracks, the bandits turned and made for the woods as fast as they could run.

Give her the gas," said Stone, and I did. Whirr—bump—bump—bump. I swept the smoothest place in the world to take off, but we weren't spending much time picking and choosing that night.

Of the ground we went. Higher and higher. Soon we sailed far above the valley, and passed through the storm out.

We landed under the back wall and made clear moonlight. The water was wet, but we were not. We landed in the middle of the night. We landed in the middle of the night. We landed in the middle of the night.

Shanghai. Gen. What had happened? We landed in the middle of the night. We landed in the middle of the night. We landed in the middle of the night.

Prince Albert National Park

Important Mineral Discovery

Proposal To Build Telephone Line To Saskatchewan Summer Resort

Erection of 22 miles of telephone line to connect Paddockwood with the boundary of Prince Albert National Park will be undertaken by the Department of Telephones, thus making telephone facilities available to the permanent residents and tourists registered in the park, said Hon. J. F. Bryant, Minister of Public Works and Minister of Telephones, who returned recently from a tour of the north part of the province.

This development will be made contingent upon the decision of the federal government to build a connecting line from the boundary of the park to Waskesieu camp, and turn it over to the provincial government for operation, free of charge, Mr. Bryant said.

Marked Canned Vegetables
An appeal to some 4,000 retail merchants throughout the Province of Alberta has been circulated by the Calgary office of the Retail Merchants Association of Canada on behalf of the canning industry. Shopkeepers are asked whenever possible to carry lines of canned vegetables made in Alberta.

Lecturer—Allow me before I close to repeat the words of the immortal Webster—

Farmer Podanap— Lan' sakes, Marie let's get out o' here. He's a goin' ter start in on the dictionary.

Extensive Find Of Gold, Silver and Lead Outcroppings In Saskatchewan

An extensive find of gold, silver and lead outcroppings has been made by G. W. Seeley, of Flat Valley, in the Lac des Isles district, Saskatchewan, which is considered to be of great potential wealth. Samples of the ore were brought to Saskatoon by Mr. Seeley, and have been submitted to the University of Saskatchewan for assay. Lac des Isles is in section 63 near the Alberta boundary.

Great interest is being taken in the find by the Department of Natural Resources officials at Regina. While in Saskatoon Premier Anderson took the opportunity of looking over Mr. Seeley's samples.

Mr. Seeley, who has been prospecting in this district for several years, is confident that the find is an important one. He said the outcroppings show considerable gold-bearing qualities, and that from tests he made on a cross-cut section of the ore-bearing rock that it is a deep seam.

The ore-bearing lode runs for a distance of twenty by six or seven miles, and the outcroppings throughout the area all show a uniform ore-bearing content.

Mistress (angrily)— "In the time it takes me to tell you to do your work I could do it myself."

Maid— "Yes'm, and in the time it takes me to listen to you so could I."

TWO VESSELS ARE CHARTERED FOR H. B. TEST

Montreal, Que.—Two tramp steamers will load approximately half a million bushels of heavy grain, probably wheat, at Churchill, Man., between September 15 and 25, 1931. Arrangements have been completed by the Dominion Government for a trial shipment from the Hudson Bay port to Europe this year and a charter certificate has been prepared by Thomas Harting and Son, Montreal, who carried out negotiations.

The S.S. Warkworth, Wentworth and Farnworth, owned by the Dalgleish Steam Shipping Co., Ltd., have been selected, though no decision has been made as to which two of these three will actually make the trip. The Warkworth has a net register of 4,944 tons, the Farnworth, 4,941, and the Wentworth, 5,212. They have been chartered to load 4,800 tons of grain, with an allowance of five per cent. either way, and will probably take on approximately 7,000 tons each, or a little more than 500,000 bushels. The first steamer will load between September 15 and 20 and the second between September 20 and 25.

In making the arrangements it was recognized that an experiment was being carried out and an experimental rate quoted accordingly. As there was no precedent on which to base any quotation, it was decided that the through rate from Fort William to London via Montreal should be applied to the northern route. The charter between shipper and ship-owner was fixed at three shillings, nine pence a quarter of 460 pounds, which compares with a rate of one shilling, six pence prevailing at present from Montreal to London. The rate from Fort William to Montreal is approximately six cents a bushel, or seven cents, with insurance and storage.

The rate of 3s. 9d. per quarter takes into consideration the hull insurance to be paid by the ship-owner to his underwriters, which is expected to work out at approximately 3½ per cent., or 50 shilling per hundred pounds sterling on the value of the ship and two shillings a ton on the gross registered tonnage. This compares with ¼ of one per cent. or one shilling, six pence per £100 and 1s. 6d. on the gross registered tonnage for vessels using the St. Lawrence route.

Should these two shipments prove successful it is probable that a definite competitive rate will be arranged for next season, when the elevator at Churchill is expected to be in full operation.

The charter certificate stipulates that the vessel will be used this year shall be completely filled on their arrival at Churchill and ready to load, as no facilities for such a purpose are yet available there.

Rich Gold Discovery

Spectacular Gold Strike Made At Red Lake, Ont.

Stouffville, Ont.—Discovery of a rich vein of gold, said to be one of the most spectacular gold strikes ever made in Ontario, is reported here. The strike was made at Red Lake on an island four miles from the Howey gold mines.

News of the discovery was confirmed by J. A. Munroe, who made the find himself, and who flew out from Red Lake by aeroplane. Although its extent has not yet been discovered, progress to date gives indications of a valuable strike.

One wall of the vein has been uncovered for a distance of 750 feet, and six pits have been sunk, varying from six feet to 15 feet in depth. Visible gold exists in each pit. Prospectors are heading a rush to the surrounding district to stake available land.

Canada Will Observe Fish Week

Montreal, Que.—Canada's fish week will be observed from September 15 to 19, it was announced by A. H. Brittain, president of the Canadian Fisheries' Association. This year, as in the past, the co-operation of both Federal and Provincial Governments would be secured, said Mr. Brittain.

W. N. U. 1903

Long Motor Trip

Italians Plan Trip From New York To Rome By Car

Ottawa, Ont.—Bound from New York to Rome by automobile, via Nome, Alaska and across the icy stretches of Bering Strait, three New York Italians have left Ottawa for Toronto. From there they plan to drive to Sault Ste. Marie, Duluth, Winnipeg and across the prairies to Nome. If accomplished, the trip will be the longest ever made by automobile.

The intrepid motorists are Giuseppe Vello, the leader of the expedition; Emilio Miani and Antonio David. At Nome they will pick up specially constructed wheels to use later on the rails of the Trans-Siberian Railway.

One of the most difficult parts of their journey will be the drive across the ice of the Bering Strait. When they reach East Cape, Siberia, they will go to Irkutsk, covering some 2,500 miles of unexplored trackless waste lands. From Irkutsk they will proceed to Khabarovsk, where they will change the wheels of their car, travelling on rails as far as Moscow. From Moscow they will go to Rome by way of Germany and Switzerland. They expect to take 18 months to complete the journey.

Cattle Shipped North

Shortage Of Hay On Indian Reserves In Qu'Appelle Valley

Regina, Sask.—Owing to the shortage of hay on the Qu'Appelle Valley Indian reserves, northeast of Regina, Indian cattle will be shipped north to graze in the vicinity of Battleford to spend the winter, according to W. M. Graham, Indian Commissioner.

Reserves in the Battleford area have an abundance of hay, Mr. Graham said, and about 25 Indians of the Regina district have been sent north to assist in the cutting.

Three cars of horses and one car of mowers and other implements have also been sent to the Battleford area. It is the intention of the Indian officials, Mr. Graham said, owing to the shortage of hay on reserves near Regina, to ship the cattle to the Mosquito and Red Peasant reserves, in the northern part of the province, where they will be wintered.

Early Navigation Of Straits

Season Of Navigation In H.B. Straits Three Weeks Earlier This Year

Ottawa, Ont.—The season of navigation in Hudson Straits this year is at least three weeks ahead of any of the preceding five years that the Marine Department have been undertaking detailed observations on navigation conditions in those waters. This information is contained in a report from Captain Balcom, of the C.G.S. "N. B. McLean," Hudson Straits breaker, to Hon. A. Durrant, Minister of Marine.

The "N. B. McLean" entered Hudson Straits on July 18, and at this moment is engaged in landing supplies at Nottingham Island at the Hudson Bay end of the Straits. She will remain in the straits until the close of navigation.

Average Yield Less

Government Report Estimates Average Spring Wheat Yield

Ottawa, Ont.—The crop report issued by the Dominion Bureau of Statistics estimates the average yield per acre for spring wheat at 54 as compared with 100, the long term average since records were first collected. The report is based on conditions as of July 31 last. In a former report, based on conditions on June 30, the average yield was placed at 56 so that conditions have fallen off two points during the month. Last year on July 31 the condition was estimated as 56. In the prairie-province the percentage in Manitoba for spring wheat is placed at 56, in Saskatchewan at 42, and in Alberta at 17, all based on conditions as of July 1.

Germans Invited To Conference

Basel, Switzerland.—A conference at which the entire problem of credits to Germany can be clarified was decided upon by the committee of experts presided over by Albert H. Wiggin of New York, and invitations were sent to the Reichsbank president, Hans Luther, and to interested German and foreign banks to come to Basel.

RETURNS TO PREMIERSHIP

Hon. J. D. Stewart, Conservative leader in Prince Edward Island, who returns to the Premiership after four years in opposition. His party won 18 seats and the Liberals 12.

High Protein Content

Manitoba Wheat Has Higher Than Usual Percentage This Year

Winnipeg, Man.—A higher than usual percentage of protein content in the wheat crop of Manitoba is indicated by Dr. F. J. Birchard at the research laboratory of the Board of Grain Commissioners here.

The tests record 18.3 per cent. maximum as compared with 14.5 last year, and the average 12.25 as compared with 11.15 in 1930.

Drouth conditions, states Dr. Birchard, have doubtless been the main factor in producing this very strong wheat.

Tests of Saskatchewan and Alberta wheat have not been made yet.

Good Wishes For Exhibition

Prince Of Wales Expresses Hope That Toronto Exhibition Will Be Success

London, England.—The Prince of Wales has expressed the hope that despite the depression the forthcoming Canadian National Exhibition at Toronto would prove a great success. The Prince, who is honorary patron of the exhibition, sent a wire to Earl Jellicoe, admiral of the fleet and head of the British Service League, who is to formally open the 1931 exhibition. Earl Jellicoe read the message from the Prince at a luncheon at which the Earl was guest of honor.

Market For Canadian Malt

Ottawa, Ont.—Successful experiments conducted by breweries in the republics of Panama and Colombia, with Canadian barley malt makes possible the development of an extensive market in those countries for Canadian barley. J. A. Strong, Canadian Trade Commissioner at Panama City, reports that similar experiments are to be undertaken by breweries in Venezuela.

BRITISH ATHLETES GIVE GOOD DISPLAY

Although the Oxford and Cambridge athletes went down to defeat in the international meet with Harvard and Yale Universities of the United States, above are two Englishmen who gave a good account of themselves. Above is W. Denison, of Cambridge, breaking the tape at the end of the three-mile race which he won, while inset is Goodwillie, of Oxford, who turned back strong opposition to win both the 100 and 220 yard events, a remarkable feat.

Drive Against Communism

Five Alleged Leaders Of Communist Organization Are In Custody

Toronto, Ont.—With the arrest by the Royal Canadian Mounted Police in Vancouver, B.C., of Malcolm L. Bruce and Samuel Cohen, alias Samuel Carr, five alleged leaders, or "key men," of the Communist organization in Canada are in custody of the authorities.

Bruce is a former editor of "The Worker," a Communist paper. He is 34 years of age and was born in Prince Edward Island. He is a carpenter and has lived in Los Angeles, Cal., and various cities of Canada. In May, 1923, he was charged with sedition in connection with the Besco disturbances in Cape Breton.

Cohen is 24 years of age, an accomplished linguist and a platform speaker. He has recently been engaged in an extensive tour of western Canada.

Other leaders under arrest in the present campaign against Communism and Communist literature by the Ontario Provincial Government are Tim Bucx of Toronto, political secretary of the organization in Canada, John Boychuk, Toronto organizer among Ukrainians and Mike Golinaky of Calgary. All three appeared in the Toronto police court and were remanded. Substantial bail was demanded.

Pawnshop Authorized By Montreal Officials

Percentage Of Profits Will Be Donated To Charity

Montreal, Ont.—Establishment of a pawnshop under civic patronage has been authorized by the municipal authorities here. The city entered upon a contract with an incorporated firm, authorizing this company to open one or more pawnshops for one year. The company agreed to give the city 10 per cent. of the proceeds of its business.

The money given to the city, fixed at a minimum of \$1,200 a year, will be donated to charity.

The reason behind the move, it was explained, was that many people were in need of money but were hesitant about approaching an ordinary pawnshop. With civic protection and guarantees, these people would be assured of fair treatment and security.

Aviators Are Held

Pangborn and Herndon In Difficulties At Tokyo

London, England.—A Reuter's dispatch from Tokyo said the public prosecutor there had decided to order the confinement of Clyde Pangborn and Hugh Herndon, Jr., United States aviators, pending the outcome of an investigation of charges that they flew over fortified areas in Japan without permission.

The two flyers, who failed in an attempt to set a new speed record around the world, have been undergoing questioning by Japanese officials for several days.

WHEAT EXPORTS PROVE GREATER THAN LAST YEAR

Fort William, Ont.—The unreviced estimate of export clearances of Canadian wheat for the crop year ending July 31, 1931, places the amount at 235,898,747 bushels, according to the report for July issued by E. A. Ursell, statistician to the Board of Grain Commissioners. "When final figures are available it will be seen that the past year's exports of wheat and wheat flour will be around 75,000,000 bushels more than during the previous year, the report states.

The report states that the amount of wheat in store, afloat and in transit, not including amounts in farmers' hands, is 119,279,545 bushels, compared with 115,529,490 at the end of the 1930 crop year. "The last month," the report continues, "appears to have been generally unfavorable to the Canadian grain trade and produce."

The report remarks that final figures of the crop year on wheat in store will not differ greatly to those in the previous year "unless quantities in farmers' hands are largely in excess of last year's total."

Refuse To Register Orientals

Will Not Qualify Under Relief Plan In British Columbia

Vancouver, B.C.—Destitute Orientals must fend for themselves this winter, it was stated here.

Reports that the Federal and Provincial Governments have refused to contribute toward their keep were verified by H. McVety, superintendent of the employment service of Canada, and City Relief Officer H. W. Cooper. They stated they had been ordered to refuse to register all Orientals presenting themselves for listing under government unemployment relief schemes.

Mr. McVety said that the employment service had already registered a few. Col. Cooper reported that his officials had been obliged to refuse registration of five Japanese.

Canada To London By 'Plane

\$5,000 Will Purchase Ticket On Proposed Flight

Montreal, Que.—The sum of \$5,000 will buy some adventurous individual passage on an aeroplane flight from Montreal to London via Greenland and Iceland, according to an advertisement appearing in a local newspaper. A third interest in the proposed flight, which will take place "within two weeks," is included.

The flight is to be made in a cabin "plane" flown by an experienced pilot, the advertisement states, giving no details of the identity of the sponsors of the flight.

Cardinal To Resign

Cardinal Pacelli May Resign As Papal Secretary Of State

Vatican City.—Semi-official confirmation of reports that Cardinal Pacelli is to resign as papal secretary of state came from the Vatican.

He has sought the Pope's permission. It was said, but the Pontiff asked him to wait until the difficulties with Italy over the Catholic Action organization are settled.

It is believed that some sort of accord on that issue will have been reached by autumn and that the cardinal will retire from his office in November or December.

Must Defer Western Trip

Ottawa, Ont.—Owing to the lateness of the parliamentary session, Hon. E. N. Rhodes, Minister of Fisheries, has found it necessary to defer until next summer his journey to Pacific Coast Fisheries. The Minister had intended to spend several weeks in British Columbia at the height of the fishing season this year.

May Attempt World Flight

Seattle.—Offices of the Shell Oil Company here admitted that fuel supplies had been sent to a base in the Aleutian Island, Alaska, for Captain Wolfgang von Gronau, German aviator, now at Tokyo, Japan, giving rise to the belief in Seattle that he contemplated an around-the-world flight.

Edmonton Beach.

The girls' club from Stony Plain—the C.G.T.—is having a vacation here, and are housed in the Jac Miller bungalow. Miss Miller, of the local teaching staff, is their chaperon.

A good basketball game was played here on Sunday evening by two teams from the City—the Seagulls and the Sparrows; the latter winning by 10 to 8.

The boys at St. Joseph's Camp, at the Beach, were the hosts to their friends Sunday afternoon, at a picnic. A very fine program of sports was run off, including a baseball game. As the camp was closing that day, the boys left for their homes in the City by motor car about 7 p.m.

STONY PLAIN CONSOLIDATED SCHOOL.

School will reopen on Tuesday, 1st September, at 9 a.m. Students in High School grades are requested to enrol with the Secretary on or before the 27th August.

Owing to the limited accommodation, the Board is unable to guarantee admission to new students from other districts.

JAS. MALLOCH,
Secretary.

WHY SUFFER FROM HEADACHES,

Pain in and around the Eyes?
The right glasses fitted to your eyes will surely relieve you and give you comfort.

Glasses furnished Free.
Fifteen dollars examination fee.
That is far cheaper than paying \$3 to \$10 for an examination and then glasses at \$12 to \$15; but you cannot see the logic of this; you need more than glasses.

Stony Plain.

Stony Plain and District

Mr and Mrs John Eberhardt, who had been spending a vacation here with relatives, have returned to their home in Edson.

St. Matthew schools No. 1 and 2 will be open for the autumn term Monday next, Aug. 24.

A petition is in circulation to have the Wednesday half-holiday in Stony extended thru the month of September.

The local unemployment situation will be slightly relieved next Wednesday, when the big golf tournament will be in progress on the local course, as it's figured about twoscore caddies will be needed, and a half dozen hunters to retrieve the lost balls.

Wednesday next, Aug. 26, will see the last Wednesday half holiday this season, for Stony Plain town.

Stony Plain Consolidated school opens Tues. Sept. 1st. Owing to the limited accommodation, the school board is unable to guarantee admission to pupils from other districts.

The funeral took place on Tuesday afternoon of the infant child of Mr and Mrs Rudolf Breitkreutz. The service was conducted by Pastor Eberhardt, and interment was made in the St. Matthew churchyard.

Watch the Royal Cafe window for special bargains on all kinds of fruit.

Church Service for Masons.

On Sunday evening next, Aug. 23d, the service at Stony Plain United Church will be under the auspices of Meridiam Lodge, A. F. and A. M. The special speaker will be Rev Captain McLeod of Edmonton. The public is cordially invited to attend.

Inga M.D. Investigation.

The sessions of the investigation being conducted by Mr Justice Tweedie were continued up to yesterday. The Edmonton Journal has been giving special attention to this case, several columns being printed daily; Saturday's issue carrying a screamer head across the page.

His Honor did not appear in court on Saturday, the sessions on that day being taken up by Mr Parlee, K.C., in hearing further complaints from ratepayers of Inga Municipality. Detective Coggles was present. On Monday M. Aronson was on the stand; as also were B.G. Powell and John H. Eoders.

The Supplemental Exams.

Those students who failed in a limited number of classes at the high school departmental exams, held last June will be given another chance at the supplemental examinations to be held thruout the province commencing Thurs. Aug. 27. The understanding is that students, even though successful in passing the Supplemental exams, will not be eligible for entrance to the Normal schools, which open next month.

Saws Sharpened.

Have your Hand Saws attended to by John Metzler. Leave them at Woods' Butcher Shop.

Spruce Grove News

Mr John Lount left Tuesday for Edmonton.

Mr Wm McLeod has commenced the erection of a shed for lumber, on the east side of Main St.

Mr and Mrs Jac Brox and Mr and Mrs D. Brox motored to Wetaskiwin on Saturday, to attend a funeral.

Messrs Ivan and William Sutherland spent the weekend at Westlock.

The Sunday school in connection with St. Matthew's church (Manitoba Synod) held its annual picnic Sunday last on the Parsonage grounds.

The Spruce Grove councilors held an adjourned meeting on Saturday afternoon, when the business in connection with the court of revision was completed.

The Grove's golf players will be well represented at the Club tournament up at Stony Plain, commencing on Wednesday next, Aug. 26th.

Mr Barnhardt announces the disposal of his entire stock of second hand machinery. All he has on hand now is 6 or 7 assorted vehicles for carrying His Majesty's mail.

The local baseball fans are disappointed at the result of the ball game at Stony on Sunday, when the Grovers lost the game for the Intermediate Cup to Duffield team.

Farmers Must Organise

A public meeting is called for Saturday next at Winterburn hall. The circular states: "Farmers must organise into a national economic and political organisation, to protect themselves against the oppression of a highly scientifically organised group of big financiers and combines."

No Cure Effectd.

It's about time that something was done about words in the English language having two meanings. For instance, the following letter was received by a company manufacturing corn syrup:

"Dear Sirs: Altho I have used six cans of your corn syrup, my feds are no better than when I started."

The most comfortable and most serviceable caps made for golf, motoring and all outdoor occasions, as well as street wear.

T. J. Hardwick, Agent
Stony Plain.

Here and There

New Brunswick will have an open season for partridge shooting from October 1-15 this year, according to an order issued by Hon. L. P. D. Tilly, provincial Minister of Lands and Mines.

Value last year of Nova Scotia fisheries was placed at \$10,411,200, according to a recent Canadian Government report. The lobster and cod are of chief importance.

Since the Royal Canadian Air Force made its first experimental flight over Lake Winnipeg in 1922, the total number of photographs taken from airplanes in Canada is close to half a million.

Condemned to the stockyards three years ago, Oano Paul Bruce, mature Holstein bull, was recently crowned grand champion Holstein bull of the Calgary stampede and exhibition. He was acquired from his former owner by the Canadian Pacific Strathmore farm and won in the railway's colors.

To see his 28 nephews and nieces in Canada; to return the visit made by the Canadian Bishops last year; and to see the Cathedral on Vancouver Island are the three reasons for the two months' visit to the Dominion of His Lordship the Bishop of London, Dr. A. E. Wainwright-Ingram, who arrived recently aboard the Duchess of York.

Recent tests of the new main-line Canadian Pacific locomotive "8900", destined for heavy work in the Canadian Rockies have brought results in excess of the most sanguine expectations. It pulled a train weighing 7,561 tons, almost equal to three normal trains, from Smiths Falls to Montreal a distance of 128 miles, without a hitch, in 6 1/2 hours and showed over 20% fuel economy.

With a score of 266 in the aggregate and placed 67th in "the King's Hundred" as the first hundred shots in the King's Prize at Bisley are called, Sergeant Cecil William Poon, of Montreal, has just returned from the famous rifle shooting meet with added laurels. He has made his place in the "King's Hundred" every year since 1923 and for the last ten years has been employed at the Angus Shops of the Canadian Pacific Railway.

Half-way around the world in 17 days, London to Yokohama via Canada and Honolulu, is the record of Miss D. Bewley, of London, who left Southampton July 8 on the new Empress of Britain, was rushed to Montreal by boat train where she boarded the Imperial Limited for Vancouver. At the latter port she left on the Empress of Canada arriving at Yokohama July 25. The combination of the two ships' fast time across the Atlantic and the Pacific makes this trip a record between London and the Orient.

Travelling incognito under the name of Prince and Princess Sukhodaya, Their Majesties the King and Queen of Siam with a large suite went across Canada by Canadian Pacific from Quebec where they stayed at the Chateau Frontenac, stopping for a couple of weeks at the Banff Springs Hotel in the heart of the Canadian Rockies, where they officially opened the Highland Gathering, then going on to Vancouver where they will sail by Canadian Pacific Empress of Canada September 12 for the Orient. They govern a country of 225,000 square miles with a population of about 11,500,000. (7C)

World's Grain Exhibition and Conference

Farmers Will Win \$210,750.00 in Prizes

The World's Grain Exhibition and Conference offers Canadian farmers an opportunity to see in cash prizes amounting to \$210,750.00. Comprised in 56 competitive classes, open to the whole world, are 1,701 cash prizes. A few of the major awards follow:

\$2,500 a first prize for 50 pounds of wheat, 30 pounds of oats,
\$1,500 for 40 pounds of barley, 50 pounds of rye,
\$ 800 for 10 ears of corn,
\$ 300 for 30 pounds of peas, 30 pounds of flax,
20 pounds of clover.

With this splendid opportunity before them, Canadian farmers should keep a watchful eye on their growing crops. They should mark for special care those areas that appear most promising.

It should be understood that all seed and grain samples, if they are not already selected, will have to be found in crops of this year. All exhibits must be received by the Exhibition authorities on or before March 1, 1932.

Of vital importance to the advancement of Canadian agriculture will be the winning of World Championships in 1932 by farmers of Canada. Their seed and grain exhibits must demonstrate to the world the quality of Canada's field crops.

Select the classes from the prize list most suited to the crop you grow; then select your samples from the best you have.

It is best to make your entry NOW. Your sample for exhibit must be in the hands of the Secretary at Regina on or before March 1, 1932.

Valuable information relating to the preparation of grain and seed for exhibit may be secured by writing to the Secretary of the Provincial Committee, World's Grain Exhibition and Conference, care Department of Agriculture, your own province.

Show what you grow and share what you know

On application, the Secretary, World's Grain Exhibition and Conference, Imperial Bank Chambers, Regina, will send you price lists, rules and regulations governing competitive entries and all other information.

CHAPTER XXVII.—Continued.

He moved away, while Angela threw her husband a look of dread. He put a hand on her shoulder.

"Steady," he said quietly. "That's over. Everything's all right." He might have been reassuring a frightened child. With a sense of rebellion Angela realized it, and realized also that he could calm her as no one else. It made her suddenly furious that she should be dependent on James Halliday for anything.

She glanced at Nick, who, gazing across the water, was apparently oblivious of the storm that was brewing behind him. How tall, and straight, and handsome he was, she thought. And how impossible she had found it to make the sort of impression on him that she had made so easily on others. What was the thing that kept kept her at arm's length from him? That kiss should have finished him! Never before had Angela offered her lips without an invitation.

She breathed deeply, so deeply that her husband glanced at her. She was thinking: "It was the hurricane that made the trouble. It drove me out of my mind, just as I was making an impression. Everything is against me—always has been. Why on earth did those silly Ashleys ever come to themselves? It wasn't my fault; yet Jim blames me—holds it over me like a whip whenever I look at another man. I can see his eyes now—the way they looked when that horrid mad rushed in with the news of the suicide. They turned me like hot coals. Is he so perfect that he should look at me like that? Oh, if I could make him suffer a small part of what I suffered then, but—"

Nick turned. He had evidently been thinking to some purpose as he gazed out to sea. "Angela," he said quietly, "there's something I want to ask you before I leave the boat tomorrow morning. This is a good time as any, I suppose. Would you mind telling me if you had that letter before you came to Kingston to ask me to go on the cruise?"

He had taken a sheet of crumpled paper from his pocket and handed it to her.

Halliday's glance was puzzled. Angela took the paper and apologetically it out. She was thinking: "It must have dropped out of my pocket when I was walking." She said, a trifle scornfully: "Are you in the habit of reading other people's mail?"

If she expected Nick to hurt, she was disappointed. Nick met her eyes unflinchingly.

REMNANTS

3 lbs. PRINTS, SILK OR VELVET \$1.00

A. McCREERY CO., Chatham, Ontario

BLACKHEADS

Don't suffer any longer from these unsightly blemishes that overcome them at home! Get 3 oz. Porelone Powder from your druggist. Sprinkle a little on the face cloth, apply with a circular motion and the blackheads will be all WASHED AWAY. Satisfaction or money returned.

Nick W. N. U. 1903

When a man finds an open letter on an uninhabited island, and at first glance sees his wife's name; he would, I think, be superhuman if he didn't read it. Remember, too, that the letter had no beginning and no end. Until I read it I could hardly return it to the owner. After I read it, I knew, of course, who the owner was. What I ask you is—did you know it was my duty to go home when you urged me to take this trip?"

"Duty!" She shrugged in a way that stirred Nick's anger, but he said quietly: "I think duty's the right word, though I shouldn't have thought of it as a duty, had I known I was needed."

"Needed?" She raised her eyebrows. Her tone was tantalizing. "Needed in what way?"

"If it's not in you to understand—"

Nick began hotly; but she interrupted him.

"Perhaps it's not. I never had a child. My husband, you see, prefers to pick his children out of the gutter."

"Angela," warned Halliday, his voice like steel.

"Did you have that letter before you urged me to go?" Nick persisted doggedly, unmindful of Halliday's warning glance.

Angela rose, and faced him. Halliday too, arose, as if fearful of some explosion, his anxious eyes on her face.

"Angela," he said again, "be careful. This is no place for a scene. Don't lose your temper."

"Temper!" The warning came too late. "Be careful what you say, as if how you estimate me, you virtuous married men. Look here, Nick Hastings, you act like a prosecuting attorney but if you'd stop and ask yourself a few questions—ask your wife kept that secret from you as if it were something shameful—you'll have other things to think of besides that ridiculous letter from Julie Nippa. You're innocent as a baby; but you won't be innocent when I'm through with you."

"Stop!" commanded Halliday sternly. "Do you want the whole ship to hear? Stop at once, and think what your temper has cost before. Remember the Ashleys. It was because you were angry with me that you kept that secret from me!"

She turned on him furiously. "Oh, I've thought, and thought, and thought, and I've seen things you never meant me to see. You'll confess now, you hypocrite. You'll tell Nick Hastings why you've been sneaking back to Bakersville every week, pretending that you went to see that little gutter-snipe. You'll tell him why you went at a time of day when he'd be busy at the bank. You'll tell him how crazy you are about his precious wife—and you'll tell who's the father of that baby that's coming in September. You—"

"Take that back!"

Nick was facing her—his eyes ablaze—his finger pointing straight at her in a way that looked to her suddenly terrified eyes, as deadly as the barrel of an automatic. In one sickening moment she realized that her temper had run away with her again—that she had gone too far. For the first time already, she felt, as Nick perceived, with a deadly quietness that was more striking than her own anger:

"Take that back! If you weren't a woman I'd throw you to the sharks. Go below. Go now. And stay there—until I've left this boat."

For a moment Angela paused, literally frozen with surprise. Then, strangely, she who had never obeyed anything but her own will, turned and fled. One look she cast behind, only to meet Nick's furious eyes, and that terrible finger pointing its scorn. Halliday stood like statue, not seeming to move an eyelash till the sound of his wife's feet on the stairs had ceased. Then Nick said, and his voice shook: "Perhaps—I owe you an apology for speaking to your wife like that; but—"

"No, my friend—she gave you the right."

Halliday's voice was queer, and cracked, and lifeless. He had to clear his throat before he added: "Sit down, Hastings. I can't stand up. These scenes—they take something out of me—I can't get back; and this—there has never been anything like this. As to that hideous accusation of Mrs. Halliday's—"

"Don't speak of it—ever again!"

Nick's voice was hoarse. He was shaking from head to foot.

Do you think I don't trust my wife? Do you think I'd denounce her by listening to an explanation? Do you think that I don't trust you?

Halliday—that I've forgotten that you asked me no questions that dreadful time when Mrs. Halliday and I were out all night? And do you think for a minute that even should you tell me it was true, I would believe you? If you do—you don't know Gay."

His eyes met Halliday's, and the older man saw there something he had seen but once before, on the night when Gay had said, lifting her own wonderful eyes to his: "No harm will ever come to your wife through Nick, Mr. Halliday. Whatever's happened—it won't be that."

Trust—that was it. Complete and abiding trust. To few is it given, perhaps. To James Halliday the sight of it—the knowledge that such a thing existed, had changed and beautified a world that was becoming a place of bitterness and gall. For a moment he closed his eyes, seeing Gay's face in the moonlight, as he had seen it the night before he came away—feeling again the soft touch of her hands against his lips. He arose wearily, drawing a deep breath. He seemed suddenly to have aged, and his voice shook.

"We have brought you nothing but trouble, Hastings. We bring trouble to everyone we touch."

He turned with dragging step and went below, looking down at Angela, who lay huddled in her berth. Her back was toward him, and she made no sign to show her knowledge of his presence; but Halliday knew, from her relaxed attitude, that the storm was over.

He stooped, laying a hand upon her shoulder. "Sleeping hard, my little unknown to herself, she had grown to depend on it like this. When he spoke, his words brought to the listening woman a sense of intolerable desolation.

"Angela," he said, so gently that she knew there was no anger—only sorrow behind the words, "I have had I think, a fair measure of patience all these years; but there's a limit, you know, to the things one can forget, and—and forgive—and go on living with. I overstepped that limit when I was knowing me, you do, you accused me of any such dastardly affair. I think—I fear—that we have reached the parting of the ways."

She sprang up, for once unmindful of her rumpled gown—her disheveled hair. She grasped his hand, clutching it in a fever—holding it against her breast with trembling fingers. "No—not You don't mean that. Jim. You should not mean that! What—what should I do alone?"

It was the first time she had ever voiced her need of him, yet it left him cold. Quietly, gently, Halliday unclashed the fingers that held his hand, and turning, went out and closed the door.

(To Be Continued.)

The nations of the earth spent \$4, 158,000,000 for national defence during the last fiscal year, the World Peace Foundation reports.

ACHES

There's scarcely an ache or pain that Aspirin will not relieve promptly. It can't remove the cause, but it will relieve the pain! Headaches, Backaches, Neuralgia, and neuritis. Yes, and even rheumatism. Read proven directions for many important uses. Genuine Aspirin can't depress the heart. Look for the Bayer cross.

Made in Canada

Never Too Old To Learn

Anyone In Reasonably Sound Health Competent To Fly Airplane

Captain J. W. C. Martyr, a retired officer of the British Navy, took lessons in flying recently and his instructor told him he was proficient to attempt the test for a class "A" pilot's license. Captain Martyr, tried and passed. He is 76 years of age.

There are many British pilots between the ages of 17 and 70. One of the 17 years old pilots was a competent almanac at 14, but 17 is the age limit for obtaining a certificate so far as youth is concerned. But apparently there is no limit to the age at the other end of the scale.

It would seem that any man or woman in reasonably sound health is competent to fly an airplane.

There are many people today who never dreamed they would ever drive an automobile. When cars came out they seemed difficult things to manage, and they were really a job for competent engineers. But cars have been so simplified that any child or old person is able to handle them.

And although there are many people, even among the young generation, who never dream that they will pilot an airplane, engineers are making these machines so simple to handle, and almost fool-proof so far as accidents from faulty handling are concerned, that the time may come when they will drive airplanes with as much nonchalance as they drive automobiles today.

One of the wonders of engineering science is the way highly complicated and powerful machines are made to be the property of anyone who learns how to manipulate a few levers and wheels.

THE RHYMING OPTIMIST

By Aline Michaels

THE PROMISE

I am so sure of joys
Which some day must be mine.
I do not doubt them any more
Than that the sun will shine.

A still voice sings within,
Sings on and will not cease.
And something in its measures brings
A surety of peace.

The bridge of care leads on
To meadows of delight;
Though straying the way I journey now,
My wings are prepared for flight.

I know the spring returns
When early winter goes,
And so my soul's defeat
Through its December snows.

The Last Ashima Ashmay really be the one if prompt measures are taken. Dr. J. D. Kellogg's Ashima Remedy will safeguard you. It will penetrate to the smallest bronchial passage and bring about a healthy condition. It always relieves and its coughing is often a permanent effect. Why not try this long-famous remedy to-day and compare its effect with that of a smoke or vapour it is equally effective.

Prince Selling New Line

New Interested In Disposal Of Airplanes In South America

The Prince of Wales is busy in an after-sales campaign with Latin America, and Britain is cheering him and aiding him in his determined efforts.

His latest move is to boost and help demonstrate British aeroplanes to Colonel Don Arthur Merino, assistant air minister of Chile.

Speaking Spanish and handling the controls, Britain's crack salesman impresses prospective buyers with his personality which in turn inspires confidence in his product.

During the weeks since his return from his Latin-American tour the Prince has held numerous conferences with South American diplomats and prominent business men. Almost weekly he entertains some official stationed in London.

Had Their Own

"Yes," said the boastful young man, "my family can trace its ancestry back to William the Conqueror."

"I suppose," sneered his friend, "you'll be telling us that your ancestors were in the Ark with Noah."

"Certainly not," said the boaster. "My people had a boat of their own."

HE COULDN'T READ FOR INDIGESTION

"For some years previous to 1922 I was subject to indigestion, with headaches and thousands of stars sparkling in my eyes, which prevented me from reading. I decided to try Kruschen Salts. That was August, 1922, and I have taken a little of my first morning cup of tea ever since. I now eat anything, and an entirely free from indigestion or stars."

Now let it be said quite definitely, that Kruschen did for him, it will do for everybody else who suffers from indigestion as he did. The fact is that "the little daily dose" first stimulates the flow of gastric juices to aid digestion, and then ensures complete, regular, and "uninterrupted" elimination of all waste matter every day.

Soon after you start on Kruschen you will begin to feel the benefit. You will find to your satisfaction that you are able to enjoy your food without any distressing after-effects. And, as you persevere, you will see that the relief which Kruschen brings is lasting relief.

Little Helps For This Week

"Faith is the substance of things hoped for, the evidence of things not seen."—Hebrews xi, 1.

Strong Son of God, immortal Love, Whom we that have not seen Thy

By faith and faith alone, embrace, Believing where we cannot prove.

We have but faith; we cannot know, For knowledge is of things we see; And yet we trust it comes from Thee, A beam in darkness; let it grow.

—Alfred Tennyson.

Without faith a man's future is dark and gloomy. The man of true faith never despair. Faith is, as it were, the eye through which he sees the all-merciful Providence taking care of the least and the most significant of His creatures. And hence, in the midst of the severest trials, the believer in God does not lose his heart.—The Biddanbell.

Miller's Worm Powders were devised to promptly relieve children who suffer from the ravages of worms. It is a simple prescription to destroy stomachic and intestinal worms without shock or injury to the most sensitive system. They act thoroughly and painlessly, and though in some cases they may cause vomiting, that is an indication of their powerful action, and not of any nauseating property.

Swims Across Niagara

Young Girl Makes Crossing Just Below Falls In Ten Minutes

Dared by the crew of the river boat, "Maid of the Mist," little 14-year-old Mary Bell of Port Dalhousie, Ont., recently swam the Niagara River just below Niagara Falls. In ten minutes, and set up a record for the crossing. The record of 11 minutes was held by William "Red" Hill, veteran river man.

She entered the water from the United States side and swam across to the boat landing on the Canadian shore. She was accompanied by a ticket agent on the "Maid of the Mist" and a cabin boy in a small row-boat.

Never before has a woman attempted the treacherous swim. Miss Bell's father is engineer of the "Maid of the Mist."

Makes a Difference

"The Lord, He hates a quitter, But He doesn't hate him, son, When the quitter's quitting something."

"That he shouldn't have begun."

CORNS

Lift off - No Pain!

QUICK RELIEF

Just a drop or two of Putnam's on any sore corn and out comes all the pain. The corn shrivels up and drops off. No scar, no pain, no pinching from tight shoes. You can dance or walk in comfort. Use only Putnam's Corn Extractor. Satisfaction guaranteed. Sold by druggists everywhere.

PUTNAM'S

Basketball Games.

Two very interesting and high-class basketball games were played at the local ball park Sunday afternoon.

The first game was between Stony Seniors and Rosnau's Pets from Bruderheim. The game seemed to be all Stony's way up to the 8th inning, when the visitors made a big splash and copped 6 runs in that inning. However, the Stony team finally woke up and held the visiting players down to a 9-7 decision. The Stony battery was: P Enders & C Lory.

The second game was the contest for the Intermediate League championship cup, and was played between the Spruce Grove and Duffield teams. The Grovers were shy one or two of their good players, and put up a mighty effort to win, but were up against a stronger aggregation. Duffield team won the game and the Cup by a score of 18 runs to 7. Batteries—Grove, C Loeblich and W Brox; Duffield, A Brass and Dodge.

Stony Plain Seniors have received an invitation to play at Morinville and Legal next Sunday.

Holborn Happenings.

The ball game here Friday evening between Holborn and Stony Juniors resulted in a win for the visitors by 12 runs to 2. A return game will be played in Stony on Sunday, Aug. 23.

The dance here on Friday night after the ball game was well patronised, Barth's orchestra supplying the music.

Grain cutting in this district is now general. Good returns are reported, except in the few spots where hail hit.

Washing for gold down at the river goes on apace, with the Soundoughs using everything from a Grizzly up.

Pitzler Bros. last week cut early sown barley with their threshing combine.

Garden Valley News.

Miss Ida Gitzel, daughter of Mr. and Mrs. Dan Gitzel, returned home last week from Vermilion, where she had been attending the summer session at the school of Agriculture, having taken a course in household economics. She had been awarded the rip and expenses paid, as a result of the great success she had had with her exhibits at the School Fair recently held.

Miss Helen Wibray has accepted the position at Garden Valley school left vacant by the resignation of Principal J. Moseley. The school board had reviewed about 70 applications before making the selection. Miss Wibray had charge of Warden school for several years. Her associate teacher here will be Miss Irene Porter, who has been re-engaged. Garden Valley school re-opens on Tuesday, Sept. 1.

Special Session of the Legislature Possible.

Called together to canvass the serious economic situation confronting Alberta farmers and the question of unemployment relief, a two-day session of U F members of the Legislature and Commons was held last week at the Parliament buildings.

In regard to the proposed moratorium for farmers, reported to have been advanced by certain members of the Legislature, it is believed this matter will largely depend on the decision of the court next month as to the validity of the Debt Adjustment act. Application has been made to have this act declared ultra vires and the case is scheduled for a hearing in September.

Should the court rule the act ultra vires and the Government decides to declare a moratorium in favor of farmers, a special session of the Assembly will be required to pass necessary legislation.

Regina Grain Fair, 1932.

Entries in the winter wheat competitive classes at the World's Grain Exhibition & Conference, at Regina next year, will not be subject to growing tests. Originally all samples of cereals entered in the competitive classes were to be put thru growing test, but the rule will be waived in connection with winter wheat entries no matter from what country they may come.

Siam's Rulers Visit Canada

The beautiful Wat Po temple, at Bangkok, capital of Siam, shows a splendid example of the country's architecture. Inset: The Majesty King Prajadhipok and Queen Rambai Barni, landing from the Canadian Government steamer "Lady Grey", at Montreal, where they were accorded an enthusiastic welcome.

Canada's most illustrious guests for the present week are undoubtedly Their Majesties the King and Queen of Siam, who, with a party of relatives, officials and servants from their own land, are at present making their way across this country and misanthrope few if any of the sights that should be seen by the intelligent tourist in our midst.

His Majesty King Prajadhipok, pronounced Pra-cha-ti-pok, with the accent on the second syllable, is the descendant of Buddha, and holder of half a dozen stirring Oriental titles, and furthermore, the unquestioned master of the destinies of ten million people.

Naturally, then, one looks toward seeing him with keen interest, and all unprepared for the shock when a well-groomed gentleman steps from his train and with smiling courtesy and in English speech quite undistinguishable from that spoken by cultured Canadians greets those who await him. Later we understand it. An Oxford education and a term of two at a French military school as well as visits of study to the United States and other occidental countries have had their effect upon a naturally active mind of an outstandingly intelligent nature.

Siam is fortunate in her King. Under his enlightened guidance she is moving slowly out of Oriental medievalism into such modernism as is good for the country's welfare and happiness, not by revolution or the sudden casting away of long-tried things that have proved their use, but by the gradual assimilation of the things that are found good among the modern.

This ruler of men takes his

kingship seriously. You see it in his every move, in his grave, thoughtful air, and in the serious, respectful manner in which the members of his suite approach him. More than all it is seen in what he has done for Siam. Of his Queen, Rambai Barni, column might be written. Her charm of manner and captivating smile have captured all who have met her ever since she first set foot on Canadian soil at Quebec. As modern as her husband, and speaking an excellent English, as indeed do all sixteen members of their suite, Her Majesty seems to enjoy every moment of her stay in Canada.

It is astonishing how interested the party are in Canadian history, and historic scenes. When at Quebec the battlefields of the Plains of Abraham were gone over most carefully and every interesting relic in and about the city was duly visited. The party occupied a complete upper floor in the tower of the Chateau Frontenac from where they had a view of the whole theatre of the struggle that ended in the fall of the French regime. His Majesty did not come to Canada as a stranger.

He was here six years ago on his way to Europe and he already knew something of our history. It is that fact that has the explanation of the exceedingly interesting statement he issued to the people of Canada upon his arrival at Quebec. It was as follows:

"In landing upon this continent in British Columbia, last April I expressed the hope that I might have an opportunity of seeing more of this great and growing member of the British Commonwealth of Nations. That hope is about to be realized. We shall remain for a time here in 'Old Canada' where the sturdy characteristics of French and British forbears have blended in a culture as admirable as it is unique. After meeting officials of the Government, and visiting the Capital of the Dominion, we shall travel west through Canada, remaining for a time in the Canadian Rockies before embarking at Vancouver. I look forward to the opportunity of seeing at closer range the people and the institutions of this nation, whose vigor and progressiveness are so happily apparent."

Church Services.

Services in St. Philip's Church next Sunday, 11.30 a.m.

United Church service every Sunday Evg. at 7.30.

There will be Gospel services every Sunday at 7.30 p.m. at Muir Lake Community Hall.

Heard at the Court.

Magistrate—Do you understand the nature of an oath?

Lady Witness—I'll say I do—with my husband a golfer and my son operating a second-hand car.

August was Mudder.

This has been a real wet summer. June was wet, July was wetter, and August is mud.—Athabasca Echo.

Optimistic.

"What is a promoter?" asks a writer. Well, a promoter is a man who cheers first and hopes to find out why later.—The Bulletin

Spoiled Hen Fruit.

Diner—What sort of pudding is this?

Waitress—We call it college pudding. Like it?

Diner—No. I'm afraid there's an egg in it that ought to have been expelled.

Methuselah Had a Prompter

A youngster wrote to a New York editor asking: "How old is a boy supposed to be before he can do as he pleases?" Came the reply: "We don't know; nobody ever lived that long." Even old Methuselah probably had someone to tell him where to head in, now and then.
